

SOLID NATURALS

Solid Traditional PureForm™ Bamboo Flooring

FINE BAMBOO FLOORING, PANELS & WORKTOPS

Solid Naturals bamboo floors in our original narrow-plank design. The slim, narrow plank of this floor, coupled with the linear look inherent to our traditional PureForm designs creates a zen look authentic to bamboo's Asian roots. This classic bamboo look works well on walls as well as on the floor, and can be used to create a seamless transition between horizontal and vertical planes.
